SUMMARY

Computer Science student with a strong foundation in Python, Data Science, Machine Learning, and AI. Skilled in developing data-driven and AI-powered applications using Python and modern development tools. Passionate about solving real-world problems through intelligent systems and continuously building practical projects in Artificial Intelligence and Machine Learning.

SKILLS

Programming & Querying: Python

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, seaborn

Technology & Tools: VS Code, Jupyter Notebook, Git, GitHub

AI & Machine Learning: Machine Learning, Data Science, AI

PROJECTS

AvaHire - AI Recruitment System | *AI/ML, Data Science*

In Progress

- Developing an AI-powered recruitment platform that automates resume screening, candidate ranking, interview scheduling, and AI-driven interviews.
- Implemented a resume matching workflow that analyzes 100+ candidate resumes against job descriptions and generates candidate match scores for faster shortlisting.
- Designed an AI interview system with real-time avatar interaction, speech-to-text transcription, and 5+ evaluation parameters including communication, confidence, and problem-solving.
- Building an automated recruitment workflow with 7+ AI agents/modules, including resume parsing, candidate matching, interview, proctoring, evaluation, notifications, and HR assistance; project is currently in progress.

AWARDS & CERTIFICATIONS

- **TechFest Data Science Workshop Certificate** – 2025
- **IBM Machine Learning Certificate** – Coursera
- **5-Day AI Agents Intensive Vibe Coding Course Certificate** – Kaggle
- **Data Engineering Masterclass** – Scaler

EDUCATION

B.Tech. in Computer Science and Engineering

G.H. Rasoni University, Amravati, Nagpur

Expected Graduation: 2027

CGPA: 7.21 / 10
